

## WHAT TYPE OF PLANT MATERIALS ARE AVAILABLE?

The planting programs offer high quality, inexpensive plant materials grown in our nursery from locally collected seed. You may purchase:

- ◆ 60 - 150 cm bare root deciduous trees
- ◆ 25 - 30 cm bare root wildlife shrubs
- ◆ 80 - 100 cm ball and burlap (B&B) evergreens
- ◆ 80 - 100 cm field clump white cedars
- ◆ 15 - 30 cm deciduous or evergreen bare root seedlings.

All plant materials are provided bare root and will be available during late April.

## Program 2: Native Plant Materials (supply only)

TRCA staff will provide plant materials for you to plant on your property.

### Native Trees and Shrubs

- ◆ 60 - 150 cm bare root deciduous trees from \$6.00 per tree
- ◆ 25 - 30 cm wildlife shrubs from \$4.25 per shrub
- ◆ 60 - 100 cm B&B evergreen trees from \$21.00 per tree
- ◆ 80 - 100 cm field clump cedars from \$8.00 per tree
- ◆ Mulch mats are available for a fee
- ◆ Rabbit guards supplied for \$1.00 per guard

### Reforestation Seedlings

- ◆ Deciduous trees from \$0.55 per seedling
- ◆ Evergreens from \$0.39 per seedling

Prices vary according to species and size. A \$15.00 shipping fee applies to all orders. Taxes are extra. Minimum orders are required. Some conditions apply, see Terms and Conditions.

## Program 1: TRCA Planting Services

TRCA staff will provide a site visit to develop a planting plan with you, and will supply, deliver and install the plant materials on your property.

### Native Trees and Shrubs

- ◆ 60 - 150 cm bare root deciduous trees from \$16.50 per tree including rabbit guard
- ◆ 25 - 30 cm wildlife shrubs from \$8.25 per shrub
- ◆ 60 - 100 cm B&B evergreen trees from \$32.00 per tree
- ◆ 80 - 100 cm field clump cedars from \$12.00 per tree
- ◆ Mulch mats may be supplied and installed for a fee

### Reforestation Seedlings

- ◆ Deciduous trees from \$0.80 per seedling including planting
- ◆ Evergreens from \$0.60 per seedling including planting

Prices vary according to species and size. Taxes are extra. Minimum orders are required. Some conditions apply, see Terms and Conditions.

## WHO DO I CONTACT FOR MORE INFORMATION?

For more information, please contact Mary Jane Moroz, Forest Stewardship Technician, at 416-661-6600, ext. 5649, or via e-mail at [trees@trca.on.ca](mailto:trees@trca.on.ca). You may also visit [www.trca.on.ca/landowners](http://www.trca.on.ca/landowners) to download an information form, which will help us determine your eligibility to participate in this program.

## TERMS AND CONDITIONS OF THE TREE PLANTING PROGRAMS

- Plant materials provided through the programs are not intended for landscaping, and are not to be planted within 15 metres (50 ft) of a residence (exceptions include windbreaks and fence rows).
- All planting occurring through the Private Land Tree Planting Programs must be carried out in accordance with an approved plan as developed by the landowner and TRCA staff.
- Orders for plant materials and planting services must be received by the end of October of the year before planting.
- All program costs are payable by the end of February of the program year.
- Landowners are responsible for identifying the location of all property lines, easements and underground utilities before the time of planting.
- All prices and product availability are subject to change without notice.

# Tree Planting Programs

Toronto and Region Conservation's (TRCA's) Private Land Tree Planting Program helps you, private landowners, restore and improve your property through the planting of trees, shrubs and seedlings. With over 30 years of planting and forest management experience, TRCA's professionally-trained staff provide planting services and hardy native plant materials to promote ecosystem regeneration.

To promote private land reforestation and stewardship, TRCA offers a variety of services and materials to eligible landowners.

- ◆ Knowledgeable planting staff provide free technical assistance to evaluate and develop planting objectives, and complete your project efficiently and carefully, generally within one day.
- ◆ Inexpensive tree and shrub planting services including machine planting of seedlings.

## REAP THE BENEFITS FROM WHAT YOU SOW

- ◆ Attract a variety of wildlife
- ◆ Contribute to the reduction of greenhouse gases
- ◆ Protect and improve water quality in the streams and ponds on your property

## REAP THE BENEFITS FROM WHAT YOU SOW

- ◆ Reduce home energy costs by providing shade and shelter
- ◆ Transform bare, open fields into tall forests
- ◆ Improve outdoor recreation opportunities
- ◆ Reduce the amount of grass to maintain, and add variety to the landscape
- ◆ Develop a sense of well-being through your contribution to the natural environment

**“I can now walk through tall forested stands of white and red pine, and spruce planted by TRCA some 17 years ago now. Since then, I’ve used the service (TRCA’s Private Land Tree Planting Program) on a number of additional occasions and, more recently, added larch, poplar and red oak, and am presently planning to add a variety of bushes. This service has transformed large sections of our property over the years and added greatly to natural heritage values.”**

Mr. Brian Buckles (Durham Region)

## WHO IS ELIGIBLE TO PARTICIPATE?

Private landowners owning a minimum of 0.8 hectares (2 acres) of land located within the Greater Toronto Area (GTA).

## WHAT TYPES OF PROJECTS ARE ELIGIBLE?

Planting projects that improve the natural environment, restore stream corridors and increase forest cover. These include:

- ◆ planting along stream banks or within river valleys
- ◆ establishing hedgerows and buffers for wildlife habitat
- ◆ establishing new woodlots or windbreaks
- ◆ connecting or enlarging established woodlots
- ◆ restoring marginal farmland
